Solving and Evaluation Teamwork or
collaboration Communication skills

Ability to manage multi-task and
manage multiple responsibility

WORK EXPERIENCE

Front-End Web Developer

AEIRG - Research Group

February 2021 - current / Nigeria

- Collaborated with backend-developer, representing web team to establish project goals, projections and milestones.
- Built and styled many new mobile-friendly websites, transitioning legacy presentations to simultaneous mobile-friendly versions.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.
- Designed and developed efficient and maintainable software according to business objectives and needs of various clients.
- Worked with UI/UX designer to synchronize web presence with brand identity and logo.
- Developed a cross-platform web-based-app software synchronized with hardware, where users can order, monitor/track and supervised their home appliances. Also, developed a Content Management dashboard/Admin panel to organize/sort users profile and information, activate and de-activate users appliance which increases the organization productivity and services

PROJECTS

Covid-19 Tracker

Developer

- Built a full-stack web app that communicates with database endpoint to extract contents e.g number of newly discovered cases, recovered, death and serve to the front-end
- Used: Javascript, React, HTML/CSS, MaterialUI.
